Process Attainment of Ecology & Economy

Jini SCM (Thailand) Co. Ltd.

With over 40 years of experience, Jini SCM (Thailand) Co. Ltd. is Thailand's leading ISO tank cleaning and repairing depot with unparalleled professional knowledge and occupies a leadership position in the industry. It offers a one-stop service for customers.

At JINI SCM (THAILAND) CO. LTD., we are providing services of cleaning for food products, standard chemicals and heavy odour cargoes with legal license issued by country's competent authority. Moreover, our services also include offering dry air pressure, nitrogen blanketing & purging, heating, periodic testing service, and full repairs (both shell & frame).

We also offer complete end-to-end on-hire & off-hire services for several leading Leasing & Tank Operating Companies.

Currently, we are providing services for both Bangkok and Chonburi side. We clean over 1,000 tanks per month especially at JINI SCM (THAILAND) CO. LTD.. All cleaning is fully automated (no man-entry) and we use reliable equipment from KARCHER (Germany).

Our partner in dealing with waste water treatment is one of Thailand's leading firm "Better World Green".
